Lake Thunderhawk – The heart of this 220-acre property is the 15+- acre lake and Log home setting in a grove of trees lakeside. The past 20+- years, it has been a private residence; but at one time this property was a very popular campground and weekend get-away. There were 120 campsites with electric and water. The shower house and event center still stand. The event center is used occasionally for parties. Business opportunity???
